**A Report on “HTML Basics”**  
**By Mr.G.Vignesh**

<b>Seminar Topic</b>	<b>Date</b>	<b>Resource Person</b>	<b>Venue</b>	<b>No. of Targeted Students</b>
<b>Session on HTML Basics</b>	05-09-2019	G.Vignesh, Assistant Professor, Department of Computer Science, Vignanasudha Degree College, Chittoor	Room No: 202	108

The in-depth knowledge of the presenter of the program Mr.G.Vignesh helped the students to have a very good grasp on HTML. He explained that HTML is important because it controls all design related aspects of a website. Design of papers, colors, page layouts at any other virtual aspects of the websites are all controlled by HTML.

**Resource person interacts to students**

HTML is fundamental in web design. Without it, websites would still plain text on white background. It allowed several innovations to webpage layout, such as the ability to:

- Specify fonts other than the default for the browser
- Specify colour and size of text and links
- Apply colours to backgrounds
- Contain webpage elements in boxes and float these boxes to specific position on the page

Mr.G.Vignesh also informed the students that HTML is easy to learn and understand but it provides powerful controls over the presentation of an HTML document. At the end, head of the student’s council offered a vote of thanks to all.

**A Report on "JAVA SCRIPT"**  
**By Mr.Eswar Prasad**

<b>Seminar Topic</b>	<b>Date</b>	<b>Resource Person</b>	<b>Venue</b>	<b>No.of Targeted Students</b>
<b>Session on JAVA SCRIPT</b>	22-02-2021	Mr.Eswar Prasad, Technical Trainer, Druthi Technologies, Bangalore	Room No: 405	113

The in-depth knowledge of the presenter of the program Mr.Eswar Prasad helped the students to have a very good grasp on Java Script. He explained that Java Script is important because it controls all design related aspects of a website. Design of papers, colors, page layouts at any other virtual aspects of the websites are all controlled by Java Script.

Java Script is fundamental in web design. Without it, websites would still plain text on white background. It allowed several innovations to webpage layout, such as the ability to:

- Specify fonts other than the default for the browser
- Specify colour end size of text and links
- Apply colours to backgrounds
- Contain webpage elements in boxes and float these boxes to specific position on the page

**Resource person interacts to students**

Mr.Eswar Prasad also informed the students that Java Script is easy to learn and understand but it provides powerful controls over the presentation of an HTML document. At the end, head of the student's council offered a vote of thanks to all.

**A Report on "PYTHON"**  
**By Mrs. S. Priyanka**

<b>Seminar Topic</b>	<b>Date</b>	<b>Resource Person</b>	<b>Venue</b>	<b>No. of Targeted Students</b>
<b>Session on PYTHON</b>	09-02-2022	S.Priyanka, Technical Trainee, Strydo Technologies.	Room No: 202	114

A seminar on computer organization was organized at SEICOM on 09/02/2022. Between 10.00 – 12.30 at college room number 405. The program was inaugurated by the vice principal accompanied by the HOD. The aim of the program is to make the students to gain knowledge on computer organization were described by the resource person.

**Resource person interacts to students**

**Mrs.S.Priyanka** shared Python is an interpreted high-level general-purpose programming language. Python's design philosophy emphasizes code readability with its notable use of significant identification. The students enjoyed the program and resource person made a few of the participants to have practical experience by allowing the hands On machine. With the vote of thanks, the program had come to an end.

## A Report on “WPS Office”

By Mr.K.Vivek

<b>Seminar Topic</b>	<b>Date</b>	<b>Resource Person</b>	<b>Venue</b>	<b>No. of Targeted Students</b>
<b>Session on WPS-Office</b>	05-07-2022	K.Vivek, Technical Trainee, Strydo Technologies	Room No: 202	124

A seminar on MS-Office was organized by our college on 26/06/2022 and the resource person is Mr.K.Vivek. Totally 124 number of participated in the program. The seminar was inaugurated by the principal. The department HOD gave the introductory speech.

The resource person explained different applications of MS-Office like MS-Word, Excel, PowerPoint, One Note, Access, Publisher, etc.

Students received the details like basic software that compress multiple applications to create interactive and graphical presentation PowerPoint.

### Resource Person Interaction with the students

The resource person gave the practical knowledge about the sum functions, the text functions VLOOKUP function, the average function and the concatenate functions.

The program had come to an end with mutual interaction followed by vote of thanks by the HOD.

## A Report on “Statistical Testing in Software Engineering”

By Mrs. Durga

Seminar Topic	Date	Resource Person	Venue	No. of Targeted Students
<b>Session on Statistical Testing in Software Engineering</b>	06-10-2022	Durga, Administrative Officer, Sri Vensy Tecnologies, Tirupati	LAB -1	52

The experts of workshop on “Statistical Testing in Software Engineering” conducted by **Mrs. Durga**.

Statistical Testing in Software Engineering is widely used among statistical and data miners for developing statistical software and data analysis.

- Statistical Testing in Software Engineering is the most extensive modelling resources in scientific research.
- The fine publishing quality graphs, early to develop our own model.
- Statistical Testing in Software Engineering is freely available under general public license.
- It has more functions and packages; it is an interpreter base language.
- Statistical Testing in Software Engineering is mostly used for data analysis.
- It incorporates all of the standard statistical tests, models and analysis.
- The graphical capabilities of R are outstanding, providing a fully programmer graphics language that surpasses most other statistical and graphical packages.

### Interaction of the Resource Person with Students

She informed the students that learning will have immense benefits that will provide with the right tools to deal with data on a large scale. Apart from statistical analysis, Statistical Testing in Software Engineering is being used in banking, e-commerce, finance and many more sectors. The students of statistics keenly listened and activity involved in the workshop and clarified their doubts.
