

# SEICOM DEGREE COLLEGE

(Affiliated to Sri Venkateswara University)

9-66/14-A, New Maruthi Nagar Extension, Tirupati.

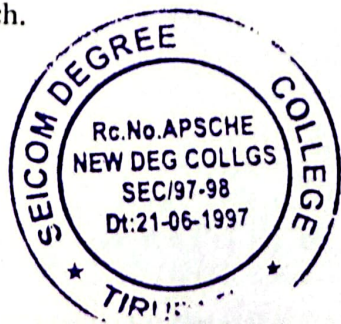

Phone no: 0877-2241094, 2242606

## RESEARCH AND DEVELOPMENT (R&D)

(2023-24)

In 2023-24, SEICOM's sustained research emphasis earned national acclaim. The college received the "Outstanding Institute in Research & Development 2024" award at a major national education awards ceremony, recognizing the entire campus's contributions to research excellence. Faculty members published several papers in reputable journals and mentored students who presented at international conferences. Institutional initiatives continued to bolster research: a dedicated research committee reviewed projects, and incentives were offered for patents and publications. The year also saw significant infrastructure additions – for example, an AI and Data Science lab was set up, and the library acquired more online journals – underscoring the college's commitment to supporting research.

- **Initiatives:** The R&D Cell launched a grant-writing workshop and established a Research Promotion Committee to further encourage scholarly activity.
- **Projects & Achievements:** Students completed capstone projects in collaboration with industry mentors, and faculty received grants for interdisciplinary research.
- **Collaborations:** SEICOM signed additional MOUs with a financial services training platform and a technology incubator, linking students with real-world research projects.
- **Events:** The College hosted a two-day symposium on "Innovation in Science and Commerce" and participated in national education conclaves, raising SEICOM's research profile.
- **Policies:** A formal research policy document was adopted, outlining processes for project funding, patent filing support, and recognition of faculty-student research teams.
- **Infrastructure:** A specialized research lab equipped with IoT kits and machine learning hardware was launched, and institutional subscriptions to international research databases were expanded, enhancing support for advanced projects.
